

INSTALLATION INSTRUCTIONS

Part Number: 33-3186

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

* FREE K&N® decal To register your warranty, please see us online at knfilters.com/register. FREE K&N® decal *

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

If you need any assistance please call +31 40 2568678 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1. Squeeze tabs to remove the air filter door. (Fig 1)
2. Pull the tray out and remove the OE filter. (Figs 2 & 3)
3. Apply the included grease on one end of the K&N filter as shown. This will allow the filter to slide in more easily. (Fig 4)
4. Insert the K&N filter into the tray with the greased side away from the pull tab. (Fig 5)
5. Reinstall the tray with the greased end sliding into the air box first. (Fig 6)
6. Press the assembly in fully and reinstall the air filter door.
7. Clean an area on the air box and apply the K&N Stop Decal. The decal will help notify others, who may be working on this vehicle, that this is a washable/re-usable air filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 50,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5000EU, 99-5003EU, or 99-5050 and follow the easy instructions.
