

INSTALLATION INSTRUCTIONS

Part Number: SU-1598

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

* **FREE K&N® decal** To register your warranty, please see us online at knfilters.com/register. **FREE K&N® decal** *

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® Filtercharger® seals properly.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1. Remove the stock filter.
2. Remove the factory o-ring from the stock air filter sealing groove.
Note: the o-ring will be reused.
3. Wipe out any dirt or dust that may be inside the air filter housing.
4. Install the o-ring (**removed in step 2**) onto the K&N Filtercharger. (**FIGS. 1 & 2**)
5. Work the o-ring into the sealing groove so that it sits inside completely flush and is secure. (**FIG 3**).
6. Install the K&N Filtercharger into the air box.

Note: Ensure that the o-ring remains secure in the sealing groove while installing.

7. Using the stock screws, secure the K&N Filtercharger to the air box.
6. Clean an area on the air box and apply the K&N Stop Decal. The decal will help notify others, who may be working on this vehicle, that this is a washable/re-usable air filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 50,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5050 or 99-5000 and follow the easy instructions.
